PROVISIONAL ASSESSMENT CALENDAR

PHA, semester 2, 2009–10

SUBJECT TO CHANGE — LECTURERS WILL GIVE DEFINITIVE DEADLINES

This calendar lists *approximate* deadlines for coursework for modules in Part A Physics/Engineering Physics/Physics with Cosmology to help you plan your work schedule; you should aim to work at a steady rate throughout the semester. Those on joint programmes will be informed by the relevant Department about deadlines for modules not listed here. If you have two pieces to hand in on the same day, you should plan your time in the preceding fortnight to avoid a last-minute panic. The lecturer concerned will inform you of the exact date and time when each item is due and the nature of the assessment; **this may supersede the information here**. If you think you may have difficulty meeting any deadline due to genuine extenuating circumstances, you should discuss the problem with the lecturer concerned well before the deadline. For further information, refer to the Coursework Code of Practice in the Departmental Handbook.
